MSK INTERVENTIONS CADAVERIC
WORKSHOP(FRESH FROZEN
CADAVERS), 4-5TH APRIL 2020**

**SN MEDICAL COLLEGE AND HSK
HOSPITAL,BAGALKOT**

Organized by :

*Department of Radiology and Department of Anatomy, SN Medical college
,Bagalkot,Karnataka*

in Association with Musculoskeletal society of India(MSS)

INTRODUCTION

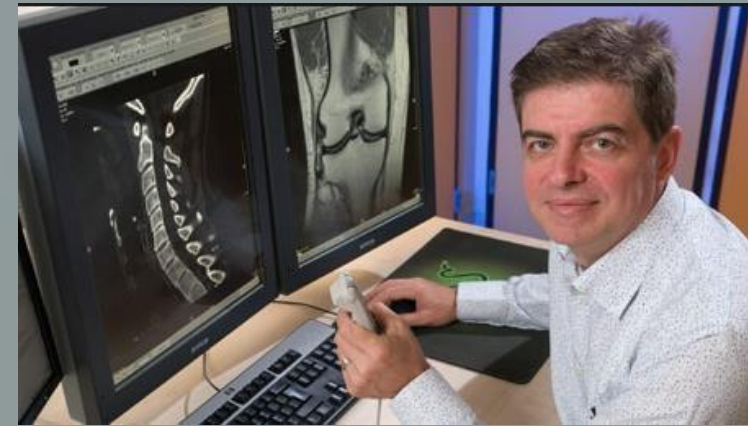

After stupendous success with raving feedbacks from the first course held in April, 2019 , We bring the second course, bigger and even better this time with International faculty.

This is a practical course on ultrasound guided MSK interventions for Radiologists. A theoretical introduction covers medication, techniques and indications, followed with in depth discussion and live demo of various Interventions in a organized way and instructed by expert Musculoskeletal Radiologists including *Internationally Renowned faculty Prof. Dr Jan Gielen, a Musculoskeletal and sports Radiologist working at University Antwerp Hospital , Belgium .*

The US guided manipulation is trained on (fresh or fresh frozen) human corpses. The number of participants is restricted to 30 to promote interaction and extensive hands on training in small groups.

COURSE HIGHLIGHTS

- 10 hours of only hands on sessions plus lectures.
- Prof. Dr. Jan Gielen as the International faculty. He is the Head of Department of Musculoskeletal Imaging and Vice Chairman of Department of Radiology and medical coordinator Sports Medicine at the University of Antwerp, University Hospital, Belgium with 30+ years of experience in Musculoskeletal radiology & MSK interventions. He is a pioneer in MSK USG and MSK interventions.
- **5:1 Delegates : Faculty Ratio** in-hand on sessions, with only expert MSK Radiologists as other national faculty.
- Detailed live demo and explanation of Gross Cadaveric anatomy on specially prepared dissected cadaveric specimens of every relevant MSK Target for better understanding of structures to be targeted on Ultrasound.

Prof. Dr. Jan Gielen
MSK & Sports Radiologist
